TO ARCHITECTS, BUILDERS, AND
ATTENTION IS DRAWN TO THE
DIRECT ACTION BALL TAP
It is manufactured by H. MALLORY, C.E.
It shows that the individual water is done away with, the
water action, whilst the water was being admitted, none was
lost, and no leakage, and the work unattended.
Direct Action Ball Tap cannot stop up at down, therefore
after a day or longer, no water; no water; a Ball with
water in it, no water in it, no water in it, no water in it,
They will all be necessary in the future, and the water is
not lost, and the water is not lost, and the water is not
lost, and the water is not lost, and the water is not lost,
The principle, with compensating valve in
the action, and perfect under any pressure.
It is also in use in the action of the Ball, and all the
very information, and drawings, furnished by application
to H. MALLORY, THOMAS, and CO., Singapore, S. P. Peninsular
Co., Ltd., London.
